Jan 12 *Energy Healing*

Presentation by Bonnie Watson

Come and explore what energy healing is, how and why it works and why it may appear not to help some people. We will learn some of the ways that healing can help the patient and also focus on some of the causes of dis-ease. We will also learn a very simple, yet effective, relaxation method and how to send out distant healing to our suffering world, family and friends.

Bonnie has taught spiritual healing, introduced healing to the Hospice of Michigan, and was a hospice volunteer for six years. She is a volunteer in the Integrative Medicine Department at Beaumont Hospital, Royal Oak, administering healing to hospice, palliative and ICU patients and others. She is an ordained Minister and the Healing Administrator in The Aetherius Society

Jan 26 *Dream Incubation*

Presentation by Margaret Dwyer, PhD

The ancient Hebrews and early Christians claimed that the "primary way God speaks to God's people" is through dreams (Somnia a Deo)---one of the given names for God being "Dream State." Accordingly, it is possible to gain insight from connecting the wisdom of ancient scriptural dreams from all cultures to our own nightly dreams.

Dr. Dwyer taught the Social Sciences at Monteith College, WSU; she has a Master's Degree in Addiction Research, and has served on the faculty of WSU in Counselor Education and Career Development. Her primary focus is on developing holistic programs, products, services, research and fund development in Family Health Care Studies and planetary restoration.
